

LOCAL IMPLEMENTATION NETWORK

**University of Debrecen
Centre for Environmental
Management and Policy**

Z.Karácsonyi – J.Karácsonyi

**Trans-Tiszanian Inspectorate
for Environment, Nature and
Water**

B.Kelemen – L.Rózsa

3rd Scientific and Technical Partnership Forum

Budapest, 20-21 October 2010

Jointly for our common future

Main aims of the LIN are:

- **to develop a good, effective and concrete communication and cooperation in two main threats of water resource at regional scale:**
 - **use of water resources**
 - **nitrate pollution of ground and surface waters (fertilizers, animal husbandry)**
- **direct involvement of target group**

LIN works as a think-tank, a consultative body and supporting team for local implementation.

LIN membership is based on three main categories of target group:

• Local bodies:

- Hajdú-Bihar County Office of Agricultural and Rural Development Agency**
- Hajdú-Bihar County Office of Central Agricultural Office**
- Hajdú-Bihar County Office of Plant and Soil Protection Service of Central Agricultural Office**
- Municipality of Gyomaendrőd**
- Regional Directorate of Environment and Water of Tiszántúl**
- Inspectorate for Environment, Nature and Water of Trans-Tisza**

Region

- **Farmers:**

- **Tedej Agricultural Production and Service Co.**
- **Rákóczi Agricultural Ltd. Földes**
- **Nagisz Agricultural Production and Service Co.**
- **Kösely Agricultural Co.**
- **Hajdúböszörmény Agricultural Co.**
- **KITE Agricultural Service and Trade Co.**
- **Hortobágy Fish Farm Co.**
- **KASZ-COOP Derecske ASgricultural Trade and Technology Service Ltd.**
- **Bocskai Agricultural Ltd. of Hajdúhadház**
- **AGRO-TEAM Agricultural Production, Trade and Service Ltd.**

- **Professional bodies:**

- **University of Debrecen Centre for Environmental Management and Policy**
- **Hortobágy National Park Directorate**
- **Tiszántúl Regional Water Management Council**

-Construction of LIN based on earlier professional co-operation and individual relationship.

- After several personal discussion the potential member got an invitation letter to participate. The letter included the overview of EU.WATER project, the role and position of LIN (strategy development, pilot project, government and incentive mechanism). At least 3 LIN meeting planned.

FIRST LIN MEETING

- **24 invited**
- **22 participated**

on 10.06.2010 at the headquarters of Trans-Tiszanian Inspectorate for Environment, Nature and Water.

At the beginning of the first LIN meeting, Dr. Zoltán Karácsonyi presented the EU.WATER Project in some words to the participants

Mr. Sándor Bara, director of Trans-Tiszanian Directory of Environment and Water Management, talked about local water management.

Mr. Géza Búvár, CEO
of KITE Ltd.,
presented the opportunities
and questions of
development of irrigation.

Dr. Gábor Podmaniczky,
director of Authority of
Plant- and Soil Protection,
talked about the relating soil
protection.

Mr. László Pallagi,
head of Sub-office of
Agricultural and Rural
Development Agency,
Presented the current status of
subvention of development of
irrigation .

After the presentations, the participants took part in the round table discussion where most of the comments and remarks were in connection with development of irrigation, its opportunities and problems and a lot of questions and proposals were made on what can be done in near future to reach remedy of current difficulties.

Summarizing the experiences of the first LIN meeting in Hungary, it can be said that the invited authorities and economic entities were pleased to be invited to such an occasion and found this participative opportunity in LIN a good forum for changing experiences and knowledge. They proposed to keep in contact constantly.

The next LIN meeting will focus on formulation of strategy development in a specific context; to solve the problem of excess water and lack of water in different phase of the growing season.

THANK YOU FOR YOUR KIND ATTENTION!
